GARDEN ART

Landscaping & Irrigation

About Us.

Garden Art Co. combines a full-service landscaping company with an experienced landscaping crew and design staff, giving us the long-standing distinction of being one of premiere landscape companies.

To Bring Landscape Dreams to life motivated Eng. Bassam Ababneh to build a business that aspires to add beauty to our world. He started 20 years before in Saudi Arabia as a young entrepreneur full of ambitions and dreams. He led the organization from one success to another driven by one simple vision. his company brings together employees who share his work ethic and passion for fine landscape design with the goal of creating magnificent outdoor spaces where clients can enjoy the splendors of nature all year over the year.

Knowing that each entity has different values, and every client would like to reflect his personality in his property, we work closely with our clients to develop unique designs that suit their personality and ambitions. With our focus on helping our clients to express themselves through their garden and explore more of their hidden senses, we never lose our attention to the choice of elements that suits the climate and the environment surrounding the garden site. Sophisticated designs as well as simple lines need a high level of dedicated, yet focused efforts to be transformed into a real healthy garden.

- We believe that extraordinary service is not a goal, but a necessary requirement for ensuring long lasting relationships through customer satisfaction.
- We believe in developing close client relationships and instilling confidence through the highest quality of landscaping

We Design, Install and Maintain the Gardens

Outdoor creations with plants such as Palms, Trees, Shrubs, Ground covers, Seasonal flowers & all types of Grass.

Landscaping is more than just grass laying, plant setting and flower arrangement. Gardeners and landscapers are always under the challenge of designing fine innovative garden and choose the right features for implementing in view of the suitability of the choices with all factors and standards of landscaping.

Garden Art along with its highly skilled Agricultural Engineers, Design Architects, Technicians, Horticulturist and other personnel develop and formulate ideas to present and create modern and fashionable designs for our valued clients without compromising the standards of quality in landscaping.

It has been said that “a garden is a reflection of one’s personality”. For Garden Art, adding the client’s personal ideas is as important as all the other elements of landscaping. We will be glad to do a garden guided by those ideas that translates the uniqueness of character of our clients.

So, if you’re thinking about having an artistic landscaping for your space, then Garden Art will definitely give that to your place.
